About Katherine

As a professional medical intuitive and a qualified and accredited naturopath and alternative practitioner, Katherine has vast experience treating all variety of dis-eases and has worked tirelessly over the years to provide a comprehensive service to her clients. She is a dedicated and compassionate person who sets high standards of practice.

Katherine is the mother to four children and grandmother of four. She operates a busy clinic in Sorell Tasmania, also dealing with physical and structural problems using modalities like Bowen Therapy. Katherine has comprehensive knowledge of many modalities and incorporates a variety of techniques into your overall healing session.

You will find her personable and polite, funny at times with a great sense of humour, and appreciation of your personal story. One of her gifts is acute accuracy of perception and the ability to make you feel at ease whilst performing little miracles in energy medicine. An experience not to be missed if you value simplicity and accuracy all at the same time on your personal, soul and medical journey.

"I run a tropical fish hatchery in Tasmania! "Love" essence is sprayed into our storage tanks. We have found a definite increase in our fertility rates since we started using this essence, which we continue to do."

Louise Willis, Launceston

"They're just yummy. Sometimes they have a subtle fragrance and other times they don't. They seem to adjust themselves to your needs."

Brody Cummings, Hobart

What are they?

These Essences were created with the intention of healing at a deep inner level.

These essences are personally channeled by Katherine according to Creator's Recipes.

Katherine has a direct connection to Creator's truth and was given specific instructions when & why to bring these Essences in for our healing.

She received direction on what plant extracts, channeled toned frequencies and words were to be placed within each essence.

They have been brewed with love and integrity. Even the dates on which they were to be brewed were given in advance by Creator to coincide with specific astrological and planetary occurrences. They can be used by anyone and are suitable for children & animals.

What do they do?

- Enable clearance of blockages in your physical body including your DNA and emotional energy through vibrational frequencies.
- Directly transport the vibration of the bottle's meaning into your body via your body's water molecules.
- Enhance your cells' understanding of Creator's truth.

These essences are subtle but very powerful. They clear blockages held in the physical/genetic body, progressing to a spiritual clearance of blocked energy patterns, accessing understanding at the soul level of self.

How do they work?

These are homeopathic-like, toned vibrational essences designed to strengthen and hold the energy in the water molecules of the body in order to create balance and harmony through light frequency.

When sprayed onto the wrist & held for 5 seconds, each essence is transported into the water molecules of the body promoting a "cellular understanding" of Creator's true meaning of the "word" title of each essence. You then raise your hands up and invite the name of the essence to come to you.

For example, if you spray from the bottle "Love" or "Empowerment" then the vibration of Love or Empowerment as Creator communicates it is passed into your body's water molecules, promoting healing and understanding at the cellular level.

Creator's truth and sense of each becomes one with your cells understanding and dis-ease related to the issue may literally dissipate, resonating the cells with the new meanings.

This hastens clearance of emotional, spiritual and physical dis-ease. Choose to use them when drawn to them.

"As a holistic veterinarian I have been using these essences with both animals and their owners to help heal and support where required. I have found them very helpful and very supportive. They create a loving energy in an otherwise frantic and stressed work environment. I particularly value their use in situations where the owners are also aware of and using the essences."

Susan Peden, Veterinarian BVSc (Hons) MACVS (small animal surgery)
